

Dear High School Teachers,

The Alumni Association is happy to announce the creation of an academic grant program. This grant will be awarded to selected students who would like to participate in **academic trips** and **have financial need**. The amount of the financial support offered through each grant will vary depending on the available funds, total cost of the trip, and the financial need of the student.

Types of Academic trips that qualify for the scholarship:

- Diplomacy or International Relations (ie. MUN, GIN)
- Leadership conferences (ASOMEX leadership, LEAD, GIN)
- Visual and Performance Arts Festivals
- Writing Conferences
- Technology Competitions
- Science and math competitions
- Other academic trips as proposed

We are very excited to start this new program! The grant will go to students with an average above 90 or weighted average, who meet the student profile expectations and complete the online application form correctly including an essay. The student who gets the grant will be an “Alumni Association Ambassador” and will be required to prepare a video testimonial of the trip describing what he/she learned. Furthermore, the grant recipient will have a responsibility to volunteer with the Alumni Association during school events to raise more money so that other students can be benefited.

In this inaugural year, we are only considering applicants from high school. In future years, we hope to accept applications from younger grade levels as well.

We invite you to communicate this new opportunity to the students in order to motivate them in their academic performance. If you are interested in involving your trip in the program or have any questions please don't hesitate to email me.
