

Summer recommendations for future kinder students

- Read childrens' books in English once a day.
- When reading, ask your child to find familiar letters within the text.
- Ask your child about details from the reading to stimulate memory and comprehension skills.
- Practice writing short words twice a week. Allow your child to choose a topic of interest. You can print out this [journal stationary](#). Ask your child to make a drawing on the top part and to use the lines to write a word that represents the drawing. You may use this [ABC strip](#) to support your child's writing by prompting with the vocabulary (e.g.: "Now you need an "M" like moon).
- Practice the writing of vowels in capital and lowercase letters.
- Review the ABC and word initials with your child [using this video](#).
- Play an ABC memory game, puzzle, or any other ABC related game ([printable game](#)).
- Sing the ABC song in English.
- Brainstorm words beginning with certain letters (e.g.: Think of a word that begins with "B"=> boot, bat, butterfly).

Enjoy your vacation along with your family!
